3x support to transform your Gallery Scope monocular into a small pocket microscope.

DESCRIPTION

Allows you to transform your Gallery Scope into a microscope using the Microstand macro support. This converter increases the magnification 3x.

This Microstand comes with LED light for better brightness.

Table showing the field of view with or without the Microstand macro support, the magnifications are:

ModelsMagnificationsField with Microstands

| 4x12 | 12x | 16.5mm

| 6x16 | 18x | 13mm

| 8x20 | 24x | 10mm
