The Natura BGA ED binoculars offer a new standard in optical and ergonomic performance for their price range.

DESCRIPTION

Main features:

- Compact, fully multi-coated ED optical system, including high-quality phase correction PC and Oasis coating on the prisms
- Long eye relief eyepieces providing a full field of view for eyeglass wearers
- Nitrogen-filled for waterproofing up to 3 m depth
- Durable “natural” rubber coating providing comfort in hand
- Large focus wheel with dioptic adjustment
- Retractable eyecups with 3 click stops
- Minimum focus of 2.5 m 10x42
- Integrated tripod socket

Roof prisms with phase correction and Oasis coating

The large field of view facilitates locating and tracking, the ED glass objectives provide brighter and sharper images, and a miniaturized mechanism for better handling makes the Natura BGA ED binoculars a new standard in optical and ergonomic performance for their price range.

For the enthusiastic observer, the new Natura BGA ED are lightweight, robust, and 100% reliable in the field, delivering a very high standard of resolution as well as excellent color rendition.

The double hinge body makes them user-friendly for one-handed use when necessary, and both models offer a perfect balance between front and back, with quick focus achieved in half a turn of the wheel from infinity to less than 2.5 meters.

The Natura BGA ED binoculars are compatible with the UTA 2x multiplier.

The Natura BGA ED binoculars come with a soft case, a strap, and protective caps for eyepieces and objectives.
