FOR A UNIQUE VISUAL EXPERIENCE. Push your limits Over a century of experience in developing optical devices, microscopes, and cameras is now at its peak with a new family of high-end Leica binoculars: the Noctivid binoculars. Compact, elegant, and stylish yet robust and resilient.

DESCRIPTION

Leica Noctivid 8x42

The Leica Noctivid 8x42 models stand out for their clear and very bright image from dawn to dusk, enabled by a large exit pupil and the best contrasts available. Vast fields of view and perfect ergonomics ensure one of the most calming image perceptions. Moreover, the large field of view allows for an unlimited overview at long distances and in depth. Complex and innovative diaphragm systems help minimize stray light and maximize contrasts. A palpable rubber armor provides a pleasant touch while the special, highly resistant, patented coating ensures additional protection for the magnesium housing's metal surfaces.
