DESCRIPTION

TAKING THE BEST START - URSUS

URSUS is the entry-level professional “roof prism” model from KITE OPTICS. It is a versatile, easy-to-use pair of binoculars designed for everyday use, backed by a 30-year warranty. The optical system features the KITE MHR coating. A coating system that provides full coverage across the lens surfaces, as well as a highly reflective coating on the prisms. This results in excellent color balance, delivering a clear, sharp image and outstanding image definition.

- Thumb rest
- Rubber coating for maximum grip
- Removable metal eyecups with rubber coating
- KITE MHR coating
- Fully waterproof and nitrogen-filled
- Supplied with strap, case, and lens covers

BUILT TO LAST

The KITE URSUS are fully waterproof thanks to the nitrogen they contain, eliminating any risk of condensation inside. Its chassis is fully covered with a sturdy rubber armor that provides optimal protection

against shocks and bumps.

COMFORT DESIGN

The soft-touch rubber coating is designed to provide maximum grip in the right places. The instrument is ultra-light and well-balanced, making it very comfortable to hold, handle, and carry with you all day long. The short hinge allows your fingers to wrap around the barrel and use the instrument with one hand.

- Removable metal eyecups with 4 adjustment stages, rubber-coated for better comfort.
- Large adjustment wheel with grip for maximum hold and quick focus adjustment.
- Thumb rest with textured grip for optimized handling.
- Soft-touch rubber coating on the chassis with grip zones.
