Binoculars from NIKON SWITZERLAND These models contain high-performance features in a compact design.

DESCRIPTION

These models contain high-performance features in a compact design.

The advantages at a glance:

- Lightweight body made of molded magnesium alloy
- Environmentally friendly. Use of non-PVC chlorides for the body of the binoculars, the eyepiece protectors, the case, and the strap. Optics incorporating eco-friendly glass free of arsenic and lead.
- High-reflectivity silver coating on the prism surfaces for brighter images
- Phase-correction treatment of the prisms for excellent resolution
- Nikon's multi-coating provides a high light transmission rate over a wide range of wavelengths and minimizes stray light, ensuring perfect color reproduction.
- Adjustable rubber eyecups facilitating eye positioning on a comfortable eye relief
- Waterproof and fog-free, with O-rings and nitrogen filling
- Minimum focusing distance: 2.4 m
- Foldable, thus easy to transport

CONCEPT-TERRAIN - Preparation of your binoculars

Rue du Perron 17
1204 Genève
022 311 47 75

Before each delivery, your binoculars undergo a **complete optical and mechanical check** by us — to guarantee you a perfectly adjusted instrument, ready for use from the first use.

To enhance your experience in the field, we add a selection of **essential accessories for free:**

- Attachment of the strap — **Smart-O'Strap**© system
- Attachment of the **comfort connector** for the eyepiece protector
