Complete beginner telescope with 70 mm refractor, mount, tripod, and two eyepieces Manual in French, well detailed and illustrated Simple to use, also suitable for children For quick observations Very lightweight and portable Fine adjustment of axes

DESCRIPTION

Vixen A70Lf Mobile Porta AZ - Air-Space Doublet Optical Tube

Ideal beginner telescope for observing the Moon, planets, and terrestrial observations.

- ***Manual in French, well detailed and illustrated***
- Simple to use, also suitable for children
- For quick observations without complicated setup
- Very lightweight and portable
- Adjustment via slip clutch mechanism
- Fine adjustment of axes possible thanks to adjustment knobs
- Weight: 4.9 kg

The set includes a 70 mm astronomical telescope and an easy-to-use altazimuth mount as well as two eyepieces.

The MOBILE PORTA mount is a small travel mount that is easily transportable for quick observations without having to set up complex equipment.

Its new compact design and lightweight make it ready to use in no time and very portable.

The new multi-arm design allows for **angular adjustment** and thus comfortable observation at zenith even with longer glasses.

In addition to these new functions, the proven features of the Porta series such as friction coupling and fine adjustment are of course included.

Easy setup

The telescope can be freely moved by hand in all directions and is held in position by the friction coupling. This allows for easy and quick adjustment to the object being observed.

The new multi-arm design

Allows for **angular adjustment** and thus **comfortable observation** at zenith even with longer glasses.

The multi-arm is adjustable in 15-degree increments.

The multi-arm system allows for **compact folding of the mount** for transport.

FEATURES

- Easy to use, also suitable for children
- For quick observations without complex setup
- Very lightweight and easy to transport
- Mount with angle adjustment
- Telescope with 70 mm aperture and 900 mm focal length (f12)
- Weight: 4.9 kg

DELIVERY CONTENTS

- A70Lf astronomical telescope
- Mobile Porta mount

- Tripod
- Tripod plate
- Fine adjustment knob
- 2 eyepieces PL20 mm and PL6.3 mm

TECHNICAL SPECIFICATIONS

Type of telescope	Astronomical refractor telescope (achromatic)
Diagonal	90° angle (31.7 mm)
Eyepieces	Plössl 20.0, 6.3 mm
Barlow	Optional
Magnifications	45x, 143x
Finder	6x24
Mount model	Mobile Porta AZ
Fine movements (precise)	Yes, by buttons
Tripod	Aluminum, height adjustable
Weight, dimensions of optical tube	4.9 kg, optical tube length 86 cm
