Compact and high-quality field monocular

DESCRIPTION

Compact and high-quality field monocular for space- and weight-conscious individuals, the Explorer WA ED-R 10x42 features ED optics with a wide field of view and the latest multi-coatings for enhanced light transmission and color contrast.

Features

- High-quality roof prism with ED glass objective
- Phase-corrected PC prism with high light transmission R multi-coating
- Nitrogen-filled, waterproof construction, black finish
- Wide-angle eyepiece with long eye relief for eyeglass wearers.
- Multi-level retractable eyepiece.
- Continuously adjustable focus with high precision
- Close focus at 2m

Supplied accessories The Explorer WA ED-R monoculars are supplied in a soft case with a neoprene monocular strap and a rubber objective protection.
