Here are the amazing stabilized APC 50 binoculars. Discover KITE OPTICS' KT3.0 image stabilization technology with our most powerful 50 mm ED optical system.

DESCRIPTION

ENHANCED OBSERVATION SEE BEYOND LIMITS

Here are the amazing stabilized APC 50 binoculars. Discover KITE OPTICS' KT3.0 image stabilization technology with our most powerful 50 mm ED optical system. Designed for precision and clarity, these binoculars redefine your observation from every angle.

BUILT TO WITHSTAND

Designed to be rugged, the KITE APC 50 binoculars feature IPX 7 waterproofing, sealed electronics, and nitrogen filling. These binoculars can withstand immersion up to 1 meter and thrive in the planet's wettest regions, providing unmatched performance in challenging conditions.

KDGS-2

In 2024, KITE OPTICS unveils the second generation of the KDGS, propelling KITE OPTICS' image stabilization performance to unprecedented levels. A new era opens once again.

KT 3.0 PROCESSOR AND SOFTWARE

With the APC 50, you experience an unparalleled level of immersion, feeling as if you are right next to the object you are observing. Thanks to the enhanced precision of KDGS-2, KITE OPTICS takes a significant step forward in the evolution of its software. KT 3.0 offers a unique visual experience that reflects the cognitive and visual patterns of the mind, making the sensation of looking through binoculars disappear.

ED/HD OPTICAL SYSTEM

Enjoy unmatched contrast with the APC 50, equipped with an ED/HD optical system. Discover a stabilized image where chromatic aberration is effectively minimized, ensuring that every view is perfectly sharp and true to life. The APC 50 is your gateway to a stable and distortion-free visual experience, where precision meets perfection.

KITE MHR ADVANCE COATING SYSTEM

The optical system of the APC binoculars, equipped with ED lenses and treated with KITE OPTICS' MHR Advance+ coatings, achieves an impressive light transmission of 86%. Combined with the "Enhanced Brightness Perception by Stability" technology, this optical masterpiece excels in low-light conditions, offering unparalleled clarity, vibrancy, and precision.

FULL SEASON ON A SINGLE CHARGE

Experience unmatched endurance with the APC 50 binoculars, which boast an impressive battery life of 38 hours. What truly sets it apart is the ingenious APC mode, allowing it to cover an entire season on a single charge under average use. Unleash the power of the APC 50 and enjoy uninterrupted viewing all year round.

AA VERSION

The APC 50 AA comes with replaceable AA batteries.

APC ENERGY SAVING MODE

No buttons and no worries. With our APC mode, your device goes into standby mode when you are not actively observing it and comes back to life when you need it, all without pressing a single button. Enjoy uninterrupted and hassle-free viewing at your fingertips.

CONCEPT-TERRAIN

Preparing your binoculars

Before each delivery, your binoculars undergo a **comprehensive optical and mechanical inspection** by us – to ensure you receive a perfectly adjusted instrument, ready to use from the first use.

To enhance your field experience, we include a selection of **essential accessories for free**:

- Attaching the strap – **Smart-O'Strap**© system
- Attaching the **comfort attachment** for the eyepiece
