High-end telescope for beginners and experienced amateur astronomers. In a nutshell Compact and portable Achromatic objective of Ø 102 mm Equatorial mount

DESCRIPTION

The StarQuest DX series: excellence made accessible

The StarQuest DX range offers complete telescope sets combining a selection of proven, high-end Sky-Watcher optics with the new StarQuest DX Deluxe precision mount that gives this series its name.

These telescopes are particularly aimed at beginners but will also satisfy more experienced amateur astronomers who refuse to compromise on quality. Whatever model you choose, we are confident that you will be fully satisfied with the optical performance and the sturdiness of the mount that will open the doors to the fascinating hobby of astronomy.

Powerful optics in a compact format

Easy to use and transport, the Sky-Watcher StarQuest DX 102/600 is a classic achromatic refractor with two lenses separated by an air gap. Its f/6 aperture ratio allows for effective observation of the Moon, planets, and many deep-sky objects.

The next-generation StarQuest DX mount

The next-generation StarQuest DX mount combines quality construction and lightweight design in an easy-to-use package accessible to both beginners and experienced observers.

Once aligned to the North Star, the mount allows for easy tracking of celestial objects using flexible control cables. It supports a maximum load of 5 kg and rests on a sturdy stainless steel tripod, adjustable in height for optimal stability.

Equipped with 360° movements on the right ascension and declination axes, the mount can optionally receive a DC drive motor (ref. 20940) on the right ascension axis for automatic tracking.

For your first astrophotography experiences, the package includes a smartphone adapter.

Your complete telescope ready to observe:

✓ Astronomical telescope 102 mm
✓ Red dot finder
✓ 2 eyepieces (10 mm + 20 mm)
✓ 90° diagonal
✓ Smartphone adapter
✓ StarQuest DX mount + stainless steel tripod
✓ Eyepiece holder + flexible cables

TECHNICAL SPECIFICATIONS

Product type	**Complete package**
Type of telescope	**Astronomical telescope**
Type of construction	**Achromatic**
Aperture diameter (mm)	**102**
Focal length (mm)	**600**
F/D ratio	**5.9**
Focusing system	**Rack and pinion**
Connection (to eyepiece)	**31.7 mm (1.25")**
Diagonal	**90° diagonal (31.7 mm)**

Rue du Perron 17
1204 Genève
022 311 47 75

Eyepieces	**Super 25.0 and 10 mm (31.7 mm)**
Barlow	**Optional**
Magnifications	**30x / 60x**
Finder	**RedDot type red dot**
Mount type	**Equatorial**
Mount model	**StarQuest DX**
Mount control	**Manual**
Fine movements (precise)	**Yes**
Motorization	**Optional**
Tripod	**Aluminum, adjustable in height**
Weight, dimensions of optical tube	**3 kg, optical tube length 53 cm**
Total weight	**6.8 kg**
