All Frontier models are equipped with the H7 optical system from HK Optics, offering exceptional image quality in high definition, remarkable color reproduction, and phase-corrected treatment for optimal optical performance.

DESCRIPTION

All Frontier models are equipped with HK Optics' H7 optics, offering exceptional high-definition viewing with remarkable color reproduction and optimal phase correction.

The high-performance surface treatments and dielectric-coated prisms ensure the highest level of light transmission. The ED X models also feature extra-low dispersion (ED) glass for controlled chromatic aberration and the elimination of color fringing.

- Extra-low dispersion (ED) glass
- Dielectric mirror coating
- High-resolution BAK-4 roof prisms with phase correction
- Hydrophobic coating on the lenses
- Magnesium alloy chassis
- Focus from 2.5 m
- Rotatable, retractable eyecups, replaceable, with click stops
- Protection caps stay in place

CONCEPT-TERRAIN

Preparation of your binoculars

Before each delivery, your binoculars undergo a **complete optical and mechanical check** by us — to ensure you receive a perfectly adjusted instrument, ready to use from the first use.

To enhance your experience in the field, we add a selection of **essential accessories for free:**

- Attachment of the strap — **Smart-O'Strap**© system
- Attachment of the **comfort attachment** for the eyecup
- Attachment of our **anti-slip system** for the objective covers — an exclusive innovation

TECHNICAL SPECIFICATIONS

Magnification	**10x**
Diameter	**42 mm**
Brightness	**4.2**
Field of view at 1000 meters	**112 mm**
Minimum focus	**2.5 mm**
Eyepiece relief	**15.0 mm**
Pupil distance (mm)	**56 to 74**
Height & width	**123x140 mm**
Weight	**725 g**
