Item ref. (SKU)	38412

All Frontier models are equipped with the H7 optical system from HK Optics, offering exceptional image quality in high definition, remarkable color reproduction, and phase-corrected treatment for optimal optical performance.

DESCRIPTION

All Frontier models are equipped with HK Optics' H7 optics, offering exceptional high-definition viewing with remarkable color reproduction and optimal phase correction.

The high-performance surface treatments and dielectric-coated prisms ensure the highest level of light transmission. The ED X models also feature extra-low dispersion (ED) glass for controlled chromatic aberration and the elimination of color fringing.

- Extra-low dispersion (ED) glass
- Dielectric mirror coating
- High-resolution BAK-4 roof prisms with phase correction
- Hydrophobic coating on the lenses
- Magnesium alloy chassis
- Focus from 2.5 m
- Rotatable, retractable eyecups, replaceable, with click stops
- Protection caps stay in place

CONCEPT-TERRAIN

Preparation of your binoculars

Before each delivery, your binoculars undergo a **complete optical and mechanical check** by us — to ensure you receive a perfectly adjusted instrument, ready to use from the first use.

To enhance your experience in the field, we add a selection of **essential accessories for free**:

- Attachment of the strap — **Smart-O'Strap**© system
- Attachment of the **comfort attachment** for the eyecup
- Attachment of our **anti-slip system** for the objective covers — an exclusive innovation

TECHNICAL SPECIFICATIONS

Magnification	10x
Diameter	42 mm
Brightness	4.2
Field of view at 1000 meters	112 mm
Minimum focus	2.5 mm
Eyepiece relief	15.0 mm
Pupil distance (mm)	56 to 74
Height & width	123x140 mm
Weight	725 g
