Item ref. (SKU)	10292

The ideal telescope, simple and handy, for both visual astronomy and daytime nature observation!

DESCRIPTION

The Sky-Watcher Startravel telescopes are high-quality 2-element achromatic refractors with air spacing, perfectly suited for wide-field observations: comets, star fields, star clusters, nebulae, bright galaxies, planets, and the Moon — and with appropriate solar filters, the Sun as well. They are equally suitable for terrestrial observation during the day.

These short-tube wide-field telescopes are ideal for astrophotography as well as for nature photography with a digital SLR camera. Their short focal ratio makes them particularly suitable for photographing lunar and solar eclipses, as well as for nature photography.

The high-quality, easy-to-use AZ Pronto altazimuth mount provides excellent stability when paired with the included stainless steel tripod and allows for precise adjustment via flexible cables in azimuth and altitude. An extension column of 21.5 cm is included to increase height if necessary.

A powerful and accessible telescope/mount set, particularly recommended for beginners, but equally appreciated by experienced observers wanting an instrument always at hand.

Delivery contents:

- AZ Pronto altazimuth mount

Rue du Perron 17
1204 Genève
022 311 47 75

- 2 flexible cables
- Stainless steel tripod
- Startravel 120 telescope
- Red dot finder
- 10 mm & 20 mm eyepieces
- 45° Amici prism 1.25"
- Smartphone holder

TECHNICAL SPECIFICATIONS

Product type	**Complete package**
Type of telescope	**Astronomical telescope**
Type of construction	**Achromatic**
Aperture diameter (mm)	**120**
Focal length (mm)	**600**
F/D ratio	**5**
Focusing system	**Rack and pinion**
Connection (to eyepiece)	**Dual focusers (31.7/50.8 mm)**
Diagonal	**45° Amici prism (31.7 mm)**
Eyepieces	**Super 20.0 and 10 mm (31.7 mm)**
Magnifications	**30x / 60x**
Finder	**Red dot type finder**
Mount type	**Altazimuth**
Mount model	**AZ Pronto**
Mount control	**Manual**
Fine movements (precise)	**Yes, via flexible cables**
Tripod	**Aluminum, adjustable height**
Weight, dimensions of optical tube	**4 kg, length 66 cm**

Rue du Perron 17
1204 Genève
