Daily activities, in all weather, with always stunning vision. Birdwatching, nature discovery, sports, and water activities: these compact, lightweight, and waterproof binoculars offer optimal comfort of use and fold up to accompany you on all your travels, with ease.

DESCRIPTION

Waterproof

The SPORTSTAR EX II binoculars are waterproof up to 1 m for 10 minutes.¹ They are nitrogen-filled to prevent internal fogging, ensuring reliable outdoor use.

Two magnifications

Choose the 8x25 model for maximum field of view to follow the action, or the 10x25 model if you want extra range to observe wildlife from a distance.

Renowned Nikon optics

A multi-layer coating reduces reflections to provide clear and high-contrast vision.

Wide field of view

Text: The SPORTSTAR EX II 8x25 model offers a wide apparent angular field of 60.3°, making it easier to track moving subjects. The 10x25 model offers an apparent angular field of 59.2°.²

Easy to carry

The compact double hinge folds easily for optimal handling.

Secure and comfortable grip

The rubberized coating provides a firm and comfortable grip and protects your binoculars from shocks, bumps, and drops.

Simple and enjoyable use

The rotating and sliding rubber eyecups make it easy to adjust the eye position.

Lightweight and durable aluminum alloy housing

Both models weigh only 310 g.
