Exceptional optics for images of unmatched sharpness, clarity, and brightness — with light transmission pushed to its maximum.

DESCRIPTION

An exceptional optic for sharp, clear, and bright images with optimized light transmission.

The Endurance models benefit from our H5 optical system. ED glass is used to reduce color fringing. The fully multi-coated lenses provide high-resolution images ensuring that no detail is lost, even when observing from 2 m.

The intuitive focus and impressive depth of field make these binoculars quick and easy to use. Waterproof and fog-proof, with a high-grip rubber body, the Endurance are designed to withstand all elements.

- Extra-low dispersion (ED) glass
- Phase correction
- High-resolution BAK-4 roof prisms with phase correction
- Focus from 2 m
- Twist-up eyecups with locking positions
- Protective caps that stay in place

CONCEPT-TERRAIN

Preparing your binoculars

Before each delivery, your binoculars undergo a **complete optical and mechanical check** by us — to guarantee you a perfectly adjusted instrument, ready to use from the first use.

To enhance your experience in the field, we add a selection of **essential accessories for free:**

- Strap installation — **Smart-O'Strap**© system
- Installation of the **comfort attachment** for the eyepiece
- Installation of our **anti-slip system** for the objective covers — an exclusive innovation
