A range of optics specifically designed for marine applications.

DESCRIPTION

A range of optics specifically designed for marine applications.

For over a decade, Endurance ED optics have been recognized for their exceptional performance and unwavering reliability. With the launch of the Marine range, we enrich this award-winning selection with optics specially designed for navigation and maritime activities.

Available in several models, the Marine Optics family offers binoculars and monoculars suited to all needs. The latest generation BAK-4 roof prism optical systems provide instruments that are significantly more compact, modern, and lightweight than the industry’s usual standards.

- 7x magnification, ideal for marine applications
- Extra-low dispersion (ED) glass
- Phase correction
- High-resolution BAK-4 roof prisms with phase correction
- Twist-up eyecups with locking positions
- Stay-in-place protective caps
- Floating strap

CONCEPT-TERRAIN

Preparation of your binoculars

Before each delivery, your binoculars undergo a **comprehensive optical and mechanical check** by us — to ensure you receive a perfectly adjusted instrument, ready to use from the very first use.

To enhance your experience in the field, we also include a selection of **essential accessories for free:**

- Strap installation — **Smart-O'Strap**© system
- Installation of the **comfort attachment** for the eyecup
- Installation of our **anti-slip system** for the objective covers — an exclusive innovation
