Item ref. (SKU) 35100

A wide range of binoculars available in many configurations.

DESCRIPTION

The Nature-Trek range uses our H2 optical system, integrated into a shock-resistant polycarbonate body, offering a robust and lightweight set. The high-grip rubber coating ensures a secure grip in all weather conditions.

The optics are sharp and precise, with natural and faithful color reproduction. The precise focus wheel allows focusing down to 2 m.

Nature-Trek offers a complete range of binoculars, from ultra-portable models to large format models, particularly suited for low light conditions where a large exit pupil diameter is essential.

- Ultra-modern design with top hinge
- Fully multi-coated optics for sharp and precise images
- 2-turn focus wheel — close focus from 2 m
- High-resolution BAK-4 roof prisms
- Lightweight and robust chassis with rubber coating
- Protective caps stay in place for maximum lens protection
- Twist-up eyecups with locking positions

CONCEPT-TERRAIN

Preparation of your binoculars

Before each delivery, your binoculars undergo a **complete optical and mechanical check** by us — to guarantee you a perfectly adjusted instrument, ready to use from the first use.

To enhance your experience in the field, we add a selection of **essential accessories for free**:

- Attachment of the strap — **Smart-O'Strap**© system
- Attachment of the **comfort connector** for the eyepiece cover
- Attachment of our **anti-slip system** for the objective covers — an exclusive innovation
