A wide range of binoculars available in many configurations.

DESCRIPTION

The Nature-Trek range uses our H2 optical system, integrated into a shock-resistant polycarbonate body, offering a robust and lightweight package. The high-grip rubber coating ensures a secure hold in all weather conditions.

The optics are sharp and precise, with natural and faithful color reproduction. The precise focus wheel allows focusing down to 2 m.

Nature-Trek offers a complete range of binoculars, from ultra-portable models to large format models, particularly suited for low light conditions where a large exit pupil diameter is essential.

- Ultra-modern top hinge design
- Fully multi-coated optics for sharp and precise images
- 2-turn focus wheel — close focus from 2 m
- High-resolution BAK-4 roof prisms
- Lightweight and robust chassis with rubber coating
- Protection caps that stay in place for maximum lens protection
- Twist-up eyecups with locking positions

CONCEPT-TERRAIN

Preparing your binoculars

Before each delivery, your binoculars undergo a **comprehensive optical and mechanical check** by us — to guarantee you a perfectly adjusted instrument, ready for use from the first use.

To enhance your experience in the field, we add a selection of **essential accessories for free:**

- Strap installation — **Smart-O'Strap**© system
- Installation of the **comfort attachment** for the eyepiece
- Installation of our **anti-slip system** for the objective covers — an exclusive innovation
