The Nature-Trek range of spotting scopes combines exceptional optical performance with a modern, lightweight, and fully waterproof design to accompany you in all your observations, regardless of the conditions.

DESCRIPTION

The Nature-Trek range of spotting scopes offers exceptional optical performance in a modern, lightweight, and waterproof design.

A fully multi-coated optical system combined with BAK-4 Porro prisms produces images of remarkable clarity and sharpness.

The 65 mm and 80 mm optical systems have been optimized for maximum performance while maintaining a short tube, making them ideal for hiking and travel. They are equipped with a rotating tripod collar, a retractable sunshade, and a custom-fitted case for optimal protection.

The ultra-compact 56 mm model features focus by barrel shift and a rotating eyecup, offering a magnification of 27x in a handheld size. Supplied with a custom-fitted neoprene case.

- Fully multi-coated optics to produce sharp images
- Close focus: observe details from 3.5 m
- BAK-4 Porro prisms for vibrant colors and high contrast

Rue du Perron 17
