Availability	**in stock / dispatched within 3-7 days**
Item ref. (SKU)	528048

The explorer's companion. ZEISS Conquest Gavia allows nature observers to see birds, animals, and the natural environment with exceptional detail, even in hard-to-reach areas, thanks to its magnification of up to 60x, HD optics, and lightweight construction.

DESCRIPTION

This spotting scope with an 85-millimeter objective lens is particularly lightweight and compact. This makes it the ideal instrument for short and long-range observation, especially in hard-to-reach areas. The short close focus, which allows for easy acquisition of small targets, is unique in its category.

Light and compact

The magnesium housing and compact dimensions make the ZEISS Gavia a lightweight and handy companion, wherever you go. This makes the Conquest Gavia an excellent travel spotting scope.

Bright, clear, and richly detailed

Exceptionally precise roof prisms and an HD lens system ensure a bright and clear image.

Ergonomic

The large focus ring allows for precise handling and easy focusing of the image.

A clear view in any weather
