Designed for discerning enthusiasts seeking high-end optical performance and impeccable craftsmanship, the Frontier ED X Gen 2 offers exceptional clarity, true color reproduction, and a wide field of view, wherever your adventures take you.

DESCRIPTION

Designed for discerning enthusiasts seeking high-end optical performance and impeccable craftsmanship, the **Frontier ED X Gen 2** offers exceptional clarity, true color reproduction, and a wide field of view, wherever your adventures take you.

Equipped with **extra-low dispersion (ED)** glass, high-end lanthanum ocular elements, and phase-corrected **BAK-4** roof prisms with dielectric coating, the **Frontier ED X Gen 2** delivers bright, razor-sharp images with exceptional light transmission and true-to-life color rendering. Its fully multi-coated optical system and wide-angle optics ensure immersive and even viewing right to the edges.

Its robust chassis made of **magnesium alloy** allows for lightweight binoculars while providing a high-precision design optimized for comfortable handling and reliable performance in the field. Equipped with replaceable twist-up eyecups, water-repellent coatings on the front lenses, and a waterproof and fog-proof construction with nitrogen filling, the **Frontier ED X Gen 2** comes with a premium case, a neck strap, and objective lens covers — ready to accompany you wherever the adventure leads.

- **Extra-low dispersion (ED)** glass
- Lanthanum oculars
- **Dielectric coatings**

- **Wide angle**
- Phase-corrected **high-resolution BAK-4** prisms
- **Water-repellent** lens coatings
- Chassis made of **magnesium alloy**
- Close focus from **2 m**
- Replaceable **twist-up eyecups** with positioning notches
- **Integrated objective lens covers** (stay-on)

TECHNICAL SPECIFICATIONS

Magnification	10x
Diameter	34 mm
Brightness	3.4
Field of view at 1000 meters	117 m
Minimum focus	2.0 m
Eyepiece relief	16.0 mm
Pupil distance (mm)	56 - 76
Height & width	124 x 118 mm
Weight	525 g
