Designed for demanding enthusiasts seeking high-end optical performance and impeccable craftsmanship, the Frontier ED X Gen 2 offers exceptional clarity, true color reproduction, and a wide-angle field of view, wherever your adventures take you.

DESCRIPTION

Designed for demanding enthusiasts seeking high-end optical performance and impeccable craftsmanship, the **Frontier ED X Gen 2** offers exceptional clarity, true color reproduction, and a wide-angle field of view.

Featuring **extra-low dispersion (ED)** glass, premium **lanthanum** ocular elements, and **BAK-4** roof prisms with phase correction and dielectric coating, the **Frontier ED X Gen 2** delivers bright, razor-sharp images with exceptional light transmission and true-to-life color rendering. Its fully multi-coated optical system and wide-angle optics ensure immersive and even viewing right to the edges. On the **42 mm** models, additional field-correcting lenses guarantee remarkable sharpness even in the peripheral areas.

Its robust chassis made of **magnesium alloy** allows for lightweight binoculars while providing high-precision design optimized for a comfortable grip and reliable performance in the field. Equipped with replaceable twist-up eyecups, water-repellent coatings on the front lenses, and a waterproof and fog-proof construction with nitrogen filling, the **Frontier ED X Gen 2** comes with a premium case, a neck strap, and objective lens covers — ready to accompany you wherever your adventure takes you.

- **Extra-low dispersion (ED)** glass
- Lanthanum oculars

- **Dielectric coatings**
- **Wide angle**
- **High-resolution BAK-4** roof prisms with phase correction
- **Water-repellent** lens coatings
- Chassis made of **magnesium alloy**
- Close focus from **1.5 m**
- Replaceable **twist-up eyecups** with positioning notches
- **Integrated objective lens covers** (stay-on)

TECHNICAL SPECIFICATIONS

Magnification	8x
Diameter	42 mm
Brightness	5.3
Field of view at 1000 meters	142 m
Minimum focus	2.0 m
Eyepiece relief	22.0 mm
Pupil distance (mm)	57 - 76
Height & width	156 x 126 mm
Weight	790 g
