Sky-Watcher | Barlow NOMAD-2

129,00 CHF

VAT included

Availability	**in stock: Geneva / dispatched within 24 h**
Item ref. (SKU)	20381

The Nomad-2 is a high-quality telecentric focal multiplier, ideal for visual observation and astrophotography.

DESCRIPTION

Premium quality – uncompromising performance!

The **NOMAD-2** is a high-end, versatile optical accessory designed for visual observation and astrophotography.

Visual observation: used as a Barlow lens with an eyepiece, it **doubles the magnification**. Its high-index glass lenses with multi-coatings ensure excellent light transmission and great sharpness. It features a self-centering brass locking ring that protects the eyepieces, as well as a captive retaining screw.

Astrophotography: its optical system with **4 lenses** ensures excellent chromatic correction and very good flatness of the field. It is ideal for capturing high-resolution images of the Moon and planets while preserving the apochromatic performance of ED glasses. A CCD camera can be directly attached using the included adapter. A DSLR camera can also be mounted with the dedicated adapter provided (M48×0.75 ring required).

The **NOMAD-2** thus serves as a particularly versatile accessory for any astronomer looking to optimize their observations and imaging.

Features

- **Magnification:** 2×

Rue du Perron 17
1204 Genève
022 311 47 75

- **Optical design with 4 elements**
- **Self-centering brass locking ring** protecting the eyepieces from scratches
- **Individually optimized multi-coatings** and high-quality optical glasses
- **Blackened edges of the lenses** and anti-reflective treated threads to reduce stray reflections
- **Compatible with 2" and 1.25" eyepieces** (1.25" adapter included)
- **CCD adapter included**
- **Adapter for DSLR camera included**, with M48 × 0.75 thread
  A corresponding M48 adapter ring for the camera is required.
- **Secure locking screws**
- **2" (50.8 mm) barrel connection** with thread for 2" filters
- **Safety groove** on the barrel
- **Metal body**
- **Weight:** 378 g (without accessories)

Delivery contents

- 2× Barlow lens
- 1.25" eyepiece adapter
- CCD/DSLR adapter ring

TECHNICAL SPECIFICATIONS

Product type	**Barlow**
Connection (to eyepiece)	**50.8 mm (2") barrel connection**
Eyepieces	**Compatible with 50.8 mm (2") and 31.7 mm (1.25")**
Barlow	**2x**
Total weight	**378 g**
