The Sky-Watcher Nomad-2 2× is a high-quality telecentric focal multiplier, ideal for visual observation and astrophotography.

DESCRIPTION

Premium quality - uncompromising performance!

The **Sky-Watcher NOMAD-2 2" 2x** is a high-quality, versatile optical accessory designed for visual observation and astrophotography.

Visual observation: used as a Barlow lens with an eyepiece, it **doubles the magnification**. Its high-index glass lenses with multi-coatings ensure excellent transmission and great sharpness. It features a self-centering brass locking ring that protects the eyepieces, as well as a captive retaining screw.

Astrophotography: its optical system with **4 lenses** provides excellent chromatic correction and very good flatness of the field. It is ideal for capturing high-resolution images of the Moon and planets while preserving the apochromatic performance of ED glasses. A CCD camera can be directly attached with the included adapter. A DSLR camera can also be mounted with the dedicated adapter provided (M48×0.75 ring required).

The **NOMAD-2** thus constitutes a particularly versatile accessory for any astronomer looking to optimize their observations and imaging.

Features

- **Magnification:** 2×

- **Optical design with 4 elements**
- **Self-centering brass locking ring**, protecting the eyepieces from scratches
- **Individually optimized multi-coatings** and high-quality optical glasses
- **Blackened lens edges** and anti-reflective treated threads to reduce stray reflections
- **Compatible with 2" and 1.25" eyepieces** (1.25" adapter included)
- **CCD adapter included**
- **DSLR camera adapter included**, with M48 × 0.75 thread
A corresponding M48 adapter ring for the camera mount is required.
- **Secure locking screws**
- **2" (50.8 mm) barrel connection** with thread for 2" filters
- **Safety groove** on the barrel
- **Metal body**
- **Weight:** 378 g (without accessories)

Delivery contents

- 2× Barlow lens
- 1.25" eyepiece adapter
- CCD/DSLR adapter ring

TECHNICAL SPECIFICATIONS

Product type	Barlow
Connection (to eyepiece)	50.8 mm (2")
Barlow	2x
Total weight	378 g
