Sky-Watcher | Barlow NOMAD-4

119,00 CHF

VAT included

Availability	**in stock: Geneva / dispatched within 24 h**
Item ref. (SKU)	20383

The Nomad-4 is a high-quality telecentric focal extender, ideal for visual observation and astrophotography.

DESCRIPTION

PREMIUM QUALITY – UNCOMPROMISING PERFORMANCE!

The **NOMAD-4** is a high-end, versatile optical accessory designed for visual observation and astrophotography.

Visual observation: used as a Barlow lens with an eyepiece, it **multiplies the magnification by 4**. Its high-index glass lenses, featuring multi-coatings, ensure excellent transmission and great sharpness. It has a self-centering brass locking ring that protects the eyepieces, as well as a captive retaining screw.

Astrophotography: its optical system with **4 lenses** provides excellent chromatic correction and very good flatness of the field. It is ideal for capturing high-resolution images of the Moon and planets while preserving the apochromatic performance of ED glasses. A CCD camera can be mounted directly with the included adapter. A DSLR camera can also be mounted with the dedicated adapter provided (M48×0.75 ring required).

The **NOMAD-4** thus constitutes a particularly versatile accessory for any astronomer wishing to optimize their observations and imaging.

Features

- **Magnification:** 4×

Rue du Perron 17
1204 Genève
022 311 47 75

- **Optical design with 4 elements**
- **Self-centering brass locking ring** protecting the eyepieces from scratches
- **Individually optimized multi-coatings** and high-quality optical glasses
- **Blackened edges of the lenses** and anti-reflective treated threads to reduce stray reflections
- **Compatible with 2" and 1.25" eyepieces** (1.25" adapter included)
- **CCD adapter included**
- **Adapter for DSLR camera included**, with M48 × 0.75 thread
  A corresponding M48 adapter ring for the camera mount is required.
- **Secure locking screws**
- **2" (50.8 mm) barrel connection** with thread for 2" filters
- **Safety groove** on the barrel
- **Metal body**
- **Weight:** 405 g (without accessories)

Delivery contents

- 4× Barlow lens
- 1.25" eyepiece adapter
- CCD/DSLR adapter ring

TECHNICAL SPECIFICATIONS

Product type	**Barlow**
Connection (to eyepiece)	**Barrel connection 50.8 mm (2")**
Eyepieces	**Compatible with 50.8 mm (2") and 31.7 mm (1.25")**
Barlow	**4x**
Total weight	**405 g**
