Sky-Watcher | Barlow NOMAD-5

78,00 CHF

VAT included

Availability	**in stock: Geneva / dispatched within 24 h**
Item ref. (SKU)	20380

The NOMAD-5 is a high-quality telecentric focal multiplier, ideal for visual observation and astrophotography.

DESCRIPTION

PREMIUM QUALITY – OPTICAL PERFORMANCE WITHOUT COMPROMISE!

The **NOMAD-5** is a high-end telecentric focal multiplier designed to deliver exceptional optical performance for both **visual observation** and **astrophotography**.

Visual observation: 5x magnification

Used as a Barlow lens with an eyepiece, the NOMAD-5 multiplies the **magnification** by **five**. This allows for particularly detailed views of the **Moon and planetary surfaces**, while maintaining excellent image quality.

Its optical design utilizing **high-index glasses** and **multi-coatings** promotes optimal light transmission and great sharpness. The **self-centering brass clamp ring** ensures a precise hold while avoiding marking the eyepieces. The captive retaining screw guarantees a secure and reliable grip.

Astrophotography: precision and excellent optical correction

Thanks to its optical system consisting of **4 lenses**, the NOMAD-5 offers excellent field correction and effectively limits perceptible chromatic aberrations. It is particularly suited for **high-resolution astrophotography of the Moon and planets**.

Rue du Perron 17
1204 Genève
022 311 47 75

Its design helps preserve the optical performance of the telescope and specifically maintains the **apochromatic qualities of an ED scope**.

A **CCD camera** can be directly connected using the included adapter. To use a **DSLR camera**, simply pair the included adapter with a compatible **T2 ring** for the camera mount.

A versatile accessory for demanding astronomers

With its careful optical design, great versatility, and included connection accessories, the **NOMAD-5** is an excellent choice for astronomers looking to fully exploit the capabilities of their instrument, both in observation and astronomical imaging.

Specifications

- **5× magnification**
- **Optical design with 4 elements** for excellent optical performance
- **Self-centering brass clamp ring**, designed to avoid damaging eyepieces
- **Optimized multi-coatings** and high-performance optical glasses
- **Blackened lens edges** and anti-reflective treated threads to limit stray reflections
- **Adapter for 1.25" eyepieces**
- **CCD camera adapter included**
- **T adapter for DSLR camera included** — a T ring suitable for the camera mount is required
- **Removable eyepiece adapter**, allowing direct access to the thread for T ring
- **Secure clamping screws** for reliable accessory retention
- **Integrated thread for 1.25" filters**
- **Safety groove** on the 1.25" connector to prevent accidental slipping
- **Fully metal construction**
- **Weight: 190 g**

Delivery contents

- Telecentric Barlow **5×**
- Eyepiece adapter
- CCD camera adapter
- T adapter for DSLR camera

TECHNICAL SPECIFICATIONS

Product type	**Barlow**

Rue du Perron 17
1204 Genève
022 311 47 75

Connection (to eyepiece)	**31.7 mm (1.25")**
Eyepieces	**Compatible with 31.7 mm (1.25")**
Barlow	**5x**
Total weight	**190 g**
